

porlite  
Stand with Nature.

## PORLITE STORY

**B**orn of the need to protect both people and the environment, Porlite is made from non-toxic, energy saving and environmentally friendly materials.

It is a pioneering technological innovation created by the textile industry, and its outstanding ventilation and wind resistance features offer superior comfort to the wearer.

When you choose Porlite, not only do you choose the color and comfort of the fabric, you demonstrate your commitment to the environment and a connection with nature.

# PORLITE VISION

To build a comfortable, environmentally friendly clothing for all outdoor enthusiasts.

Stand with Nature.

We believe that environmental protection and practicality can be perfectly combined, and we no longer have to hesitate between the two.

Porlite, the green processes fabrics with excellent breathability and waterproof performance.

The value of Porlite is showing to the public that you can have a better choice for yourself and for mother earth. You are not just choosing the color or wearing comfort, you are also choosing your impact on the planet.
